

“Panacur helps keep my horses fit to perform at the highest level”

*Peter Storr is one of the UK's leading Dressage riders and trainers*

“Worming is an essential part of horse care. We want our horses to be in the best of health, so they can perform at the highest level, so we use **Panacur Equine Guard** and the **Active3** worming plan.”

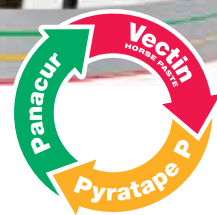

“It's easy to follow, and we follow it to the letter. I find it foolproof.”

**Panacur Equine Guard** is effective at targeting encysted small redworm. Used as part of the **Active3** worming plan, it forms part of a comprehensive three year worm control programme devised to help protect the health and well-being of your horses. **Simple, effective and reliable.**

**Panacur is available from all leading animal health stockists.**

Panacur contains fenbendazole. Legal category **[PML]**
