

SenseHub® Dairy

Behaviour Monitoring

Improve reproduction, health and nutrition from calf to cow

SenseHub Dairy Behaviour Monitoring is the only integrated behaviour monitoring solution for whole-life monitoring.

It enables you to recognise potential health issues with your calves, heifers and cows so you can establish optimal health and performance from the start of every cow's life.

This gives you greater control throughout the complete animal lifecycle.

Farm with **more freedom**

A connected solution that adapts to your farm

Freedom is knowing when and how to improve reproduction, health and nutrition – from calf to cow

SenseHub® Behaviour Monitoring 24/7 Behaviour Monitoring Insights

The SenseHub Dairy Behaviour Monitoring solutions monitor various behaviours of your animals to deliver actionable insights directly to the SenseHub Dairy App.

- Increase productivity through automated heat detection.
- Actionable insights to help improve health and well-being.
- Advance herd-wide nutrition and productivity with group-level insights.
- Create custom insights to fine-tune daily operations.

SenseHub Dairy Behaviour Monitoring transforms operational control through automated animal insights so that dairy farmers can farm with more freedom.
